By Associated Press

### TO INCREASE EMPLOYMENT

Miami, Oct. 21.—City Manager Coe has urged that every employer of labor in Miami put one more man to work as a means of relieving the unemployment situation, which he declares is assuming alarming proportions in Miami with every indication of becoming worse if something is not done to meet the problem.

"There is one rule about employment in this section," he said, "that I found to work out splendidly when engaged on the Key West extension work, and which I believe will hold good in most instances about Miami. I made it a point never to employ a man after September 1, who came here from any point north of the Mason and Dixon Line. For invariably the man who comes here after September will return before the last of April, while on the other hand, when we employ men who arrive in the spring and stay out a

summer, we usually have men who will stick."

### GOING AFTER GROVE ROBBERS

Miami, Oct. 21.—Grove robbers, whose activities are said to have cost growers and shippers of Dade and other South Florida counties thousands of dollars every season, were given a jolt here recently that may put a damper on their activities when L. J. Moody, convicted of stealing five sacks of avocado pears from the grove of Charles Deering near Miami, was sentenced by Judge Norfleet to serve a year and a day at the state prison farm at Raiford.

Efforts on the part of grove men in Dade county to minimize fruit stealing resulted sometime ago in the establishment of a road patrol, composed of two officers, who succeeded in capturing a number of the marauders and reduced the growers' losses, but since a recent resolution by the county commissioners cutting the

## Women are In Vast Majorities in Japan

(By Associated Press.)

Tokio Oct. 22.—Japan has 200,000 more men than women according to the revised official census returns just published.

The population is placed at 55,963,053. The population of the principal cities is as follows:

Tokio	2,173,201
Osaka	1,252,983
Kobe	608,644
Kyoto	591,323
Nagoya	429,997
Yokohama	422,938
Nagasaki	176,534
Hiroshima	160,510
Hakodate	144,749
Kure	130,362
Kanazawa	129,265

The total number of households in Japan is estimated at 11,223,053, Tokio leading with 456,823.

At present the 83 cities of Japan contain 18 per cent of the total population. The average ration of male and female population in the urban districts is 100 women to 108.7 men, while in the rural districts there are 100 women to 98.7 men. The total population of the city of Tokio has decreased by about 190,000 since 1918. A decrease of about 80,000 in Kyoto since 1918 has brought that city below the rank of Kobe while Nagoya has surpassed Yokohama in recent years.

## Cope to Shoot Big Game With Revolver

(By Associated Press.)

Shanghai, Oct. 22.—Commander E. H. Cope of the U. S. navy, who has held the post of paymaster at Shanghai for the past several years, is carrying out a wholly novel purpose in connection with a big game hunt that is to precede his return to America for a new assignment, as he has been transferred. Having sailed from Shanghai in August he is going after big game in Indo China and he intends, he said before he sailed, to shoot a tiger with a revolver.

Commander Cope has long been known as one of the best, if not the best, revolver shots in the United States navy. He has captured virtually all the trophies for revolver shooting in the Far East.

Cattle slaughtering is now being done humanely by means of a pneumatic pistol. The weapon is placed against the head of the animal and when the trigger is pulled a blunt bolt is driven out with great force which kills the animal instantly.

patrol from the payroll, growers say the thieving has increased a hundred fold. Every person arrested on fruit stealing charges will be vigorously prosecuted in the courts, growers declare.

### HARD TO GET FLAMINGOES

Miami, Oct. 21.—Director Harold H. Bailey, of the Miami Beach Museum and Zoological Garden, whose quests for rare birds and animals, has carried him through an adventurous career, has returned from Andros Island, south of Nassau, with several live flamingoes.

The birds, once plentiful on adjacent islands, have been much sought by hotel men for the past several years as an attraction for tourists. Director Bailey, who brought the birds here for educational purposes, set out in a yawl from Nassau with a carefree fisherman. They braved a heavy sea for eight days and nights, with scant provisions, before capturing the birds on the extreme southern tip of Andros Island. On the return trip the weather was so bad they had to leave several of their captives behind and even one of the birds they brought along, died from exposure. It was impossible, according to Director Bailey, to prepare food while en route because of the heavy seas, and they had to run into cover and get ashore whenever they wanted to eat.

### CLEARWATER GETS SECRETARY

Clearwater, Oct. 21.—George H. Cox, of Troy, Ala., has been elected secretary of the local Board of Trade. Mr. Cox served 13 years as secretary of the Board of Trade at Owensburg, Ky., and for the past two years has acted in a similar capacity at Troy.

## New South Wales to See if Prohibition Law Worth While

(By Associated Press.)

Sydney, New South Wales, Oct. 22.—The question of prohibition and restrictions upon the intoxicating liquor traffic has aroused great interest and comment throughout the commonwealth and a band of Sydney business men, including several members of parliament, has been formed and subscribed fourteen hundred pounds to be expended in the United States and Canada in an effort to determine what effect prohibition has upon business efficiency.

The business men plan to spend a year in obtaining and considering opinions from the United States and Canada and their conclusions are to be published here.

A great amount of speculation also has arisen here over whether the Appeals court will decide whether 6 p. m. or 11 p. m. is the legal closing hour for hotel bars in Sydney. The 6 p. m. closing was a wartime measure and it was to cease being effective within a certain period after the war. A subsequent act, however, provided that a referendum should be held on the continuance of the early closing hour. The present labor government, announced that because of the expense involved it had declined to take the question before the people.

## Service Men Are Urged to Observe Armistice Day

(By Associated Press.)

Indianapolis, Ind., Oct. 22.—Departments and posts of the American Legion are urged in a bulletin sent out from the national headquarters here to arrange for a wide celebration of Armistice day. Public meetings to be addressed by able speakers on the aims of the Legion are suggested as one form of celebration.

## China Will Have None of Soviets

(By Associated Press.)

Shanghai Oct. 22.—Acting upon instructions from Peking, Major General Ho Funglin, Chinese Defense commissioner of Shanghai, has issued orders to the Chinese military police to arrest all members of an organization of Bolshevik propagandists, said to have been sent to China by the Moscow Soviet government. It is said that these propagandists are Chinese who have been trained for their work at Moscow and, according to Peking, are 20 in number.

## South Africa Is Knocking at Door

(By Associated Press.)

Johannesburg, Oct. 22.—Under the new American immigration laws designed to prevent the influx of Polish and Rumanian undesirables, it is asserted, South African students who have won bursaries and desire to take American degrees are unable

to enter the United States. The Agricultural department has a number of men who are desirous of taking agricultural courses in the states which at present is impossible. The government is making representations to Washington.

Automobile bumpers are made of "hardwood" which is as strong as steel and lighter. Incidentally they are cheaper.

### HELP THEM—HELP YOURSELF

When you consider the steady, continuous never-interrupted work demanded of the kidneys, you do not wonder that they must have help occasionally to filter and cast out from the blood stream the waste matter that forms poisons and acids if permitted to remain, sore muscles, dizziness, floating specks, sallowness and irregular bladder action. Foley Kidney Pills give relief promptly.—For sale by J. H. Haughton.

## Can You Fit a Square Peg in a Round Hole?

If you fill the place for which you are prepared by nature, do a thorough work; develop what you have. "He gave some to be apostles, and some, prophets; some pastors, and some, evangelists and teachers, for the perfecting of the saints."

Come to

## TOYS FOR THE

KIDS AT

COCHRANES

**YOU** can buy style by the looks but when it comes to the quality you have to depend on the reputation of the manufacturer. Two generations of Americans have learned that when the Emerson trade-mark appears on the sole of a shoe you can be sure that the quality is there. Over 40 years of honest shoemaking is behind that trade-mark. We are showing a wide variety of smart, new models. You will find our prices surprisingly reasonable considering the quality and style of the shoes we sell.
